Pula is the largest town on Istrian peninsula. It has a population of 82 000 inhabitants. It developed in the inner part of an almost completely enclosed, easily protected bay where Austria built an arsenal and its largest naval base in the middle of the last century. Pula is today an important harbor and industrial town. The town has a highly developed artistic, cultural and educational life. With its good traffic connections, numerous cultural and historical sites, pleasant climate, very attractive coastline and beautiful beaches, Pula has become a major tourist resort. The most significant monument is the amphitheater (Arena), one of five amphitheatres in the world, as well as one of the best preserved Roman structures of its kind in the world. There are other monuments to visit: Augustus temple, Hercule's and Twin gates, Sergius arch.

Word of organizers:

Pula is well known to bridge players since two largest Croatian international tournaments have been held there for more than 20 years. It's picturesque geographical position and temperated mediterenian climate in the natural surrounding environment will make your stay unforgettable. We hope you will enjoy many opportunities that the place offers, such as different sports, regional cuisine and long walks along the coastline.

We wish you pleasant stay and good luck!
